

CIRCULAR NO. 141

SUBJECT:- Instructions contained in the inspection Notes of Charity Commissioner, and Government compliance of

While inspecting the working of some of the Regional Offices, it is observed by the Charity Commissioner that the observations made and Instructions contained in the Inspection Notes of the Charity Commissioner, and Government were not followed and the irregularities were not corrected though the Regional Officers sent reports to the Charity Commissioner informing the full compliance. These compliance reports were in some respects found to be false and untrue on actual verification. The Charity Commissioner has taken a serious view of this matter and he feels it necessary to instruct all the Regional Officers to see that true and correct compliance reports are submitted to the Charity Commissioner. In case it is noticed in future that such compliance reports are not true and the instructions are not actually complied with, serious view will have to be taken against the Regional Officers reporting compliance incorrectly and also against the concerned members of the staff. While signing the compliance report, the Regional Officers and the Superintendents should see and ascertain from the record and files that the compliance have actually been done.

The Regional Officers are requested to go through all the Inspection Notes drawn in the past and ascertain whether the compliance has in fact been made.

M.D. KAMBLI,
Charity Commissioner,
Maharashtra State, Bombay.

Dated:6th October, 1971.
