Sir/Madam,

With reference to above said subject, I have to state that, this office received
some oral complaints about the not updating an information of available beds in
Hospitals, run by Charitable Trusts, on the website of this office. Hence, I direct to
all hospitals to feed all necessary information on the website of this office regularly

Furthermore, it is noticed that many hospitals are not feeding data, which is
required to be fed in the website. This non compliance is causing harassment to

uploaded on the website of this office regularly.

Furthermore, this office have received some complaints on phone and otherwise that some of hospital are denying the admission of patients belonging to the weaker and indigent category in the present situation. Hence, I direct to all hospitals that hospitals shall not refuse to admit patients, belongs to weaker and indigent category, unless for the good and justifiable reason based on directions given by the State Government, considering present pandemic situation. Furthermore, it is advised that if any hospital is not having vacancy for admitting the patients then such hospital may direct such patients to other neighboring charitable hospitals, who can accommodate such patients.

Furthermore, I make it clear that such refusal and non assistance will be viewed seriously under the provisions of the Act and if any such incident is found, which attracts the provisions of the The Disaster Management Act, 2005, then it will be reported to appropriate authority, in addition to action, which will be taken.
